ConServe
Accounts Receivable Management

Version 2.0

The Secrets
to
ROI
that other agencies *don't* want you to see!

ConServe
Performance Dashboard

ConServe
Accounts Receivable Management

Let ConServe optimize your return.

The ConServe Performance Dashboard was created by Clients just like you. Our Clients wanted to see exactly how their accounts, and ConServe, were performing. Now you can get instant updates on each account.

ConServe can show you how to track:

1. The number of months on the collection floor

2. The actual amount on the collection floor

3. How much we have collected

4. What percentage you are getting (ROI)

5. Accounts sent early = highest recovery rates
